ORO EAST MINING, INC.
(An Exploration Stage Company)
NOTES TO UNAUDITED FINANCIAL STATEMENTS
June 30, 2011

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

(a) Organization and Business:

Oro East Mining, Inc. ("Oro" or the "Company") was incorporated in Delaware on February 15, 2008 for the purpose of raising capital that is intended to be used in connection with its business plan which may include a possible merger, acquisition or other business combination with an operating business.

On July 2, 2010, the Company changed its business plan to become an exploration and refining company for the mining of gold, copper, and other precious or industrial mineral deposits through the acquisition of certain rights in the Republic of the Philippines. On that date, the Company entered into an Assignment of Rights Agreement with Oro-East Mining Company LTD. Oro assigned to the Company certain rights and obligations with respect to the permitted mining claims described in the Rights Agreement. Pursuant to the Rights Agreement, the Company will assume the rights and obligations of Oro to explore, extract, refine and produce precious metals and other industrial deposits on the claims and earn fees with respect to such services. By entering into the Rights Agreement, the Company commenced business as an exploration, mining, refinery and production company. The Company intends to focus on extracting gold, silver, copper, iron ore and other industrial minerals to primarily meet the demands of Chinese Government and companies for the mined minerals.

On November 18th, 2010, Oro East Mining, Inc. invested \$50,000 to establish Oro East Greentech Philippines Inc. ("Greentech"). Greentech is wholly owned by Oro East and will be in charge of the mining business in Philippines. The financial statement presented are the consolidated for Oro East Mining, Inc. and Oro East Greentech Philippines Inc.

The Company is currently in the development stage. All activities of the Company to date relate to its organization, initial funding and share issuances.

(b) Basis of Presentation

The accompanying Interim Financial Statements are unaudited and have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission. In the opinion of management, all adjustments for a fair statement of the results and operations and financial position for the interim periods presented have been included. All such adjustments are of a normal recurring nature. The financial information should be read in conjunction with the Financial Statements and notes thereto included in the Company's Form 10-K Annual Report for the year ended December 31, 2010. The June 30, 2011 consolidated financial statements presented herein may not be indicative of the results of the Company for the year ending December 31, 2011.

(c) Going Concern

The accompanying financial statements have been prepared on a going concern basis, which assumes the Company will realize its assets and discharge its liabilities in the normal course of business. As reflected in the accompanying financial statements, the Company has a negative deficit accumulated during the development stage of \$616,757 and has negative working capital of \$387,787 at June 30, 2011. The Company's ability to continue as a going concern is dependent upon its ability to generate future profitable operations and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management's plan includes obtaining additional funds by equity financing and/or related party advances; however there is no assurance of additional funding being available. These conditions raise substantial doubt about the Company's ability to continue as a going concern. The accompanying financial statements do not include any adjustments that might arise as a result of this uncertainty.

(d) Exploration Costs

Mineral property exploration costs are expensed as incurred until such time as economic reserves are quantified. To date Oro East Mining, Inc. has not established any proven or probable reserves on its mineral properties.

NOTE 2 - RELATED PARTY TRANSACTIONS

The CEO of the company has paid expenses on behalf of the company totaling \$116,919. The balance is unsecured, non interest bearing and due on demand.

NOTE 3 - RESTATEMENT

During November 2011, we discovered some errors in our financial statements , including (a) capitalized road costs that should have been expensed (\$555,975), (b) foreign currency gain not previously recognized (\$50,000), (c) depreciation not taken on trucks (\$18,800), and (d) failure to previously record \$118,610 in share based compensation for strategic and marketing services. The effects of these restatement on reported amounts for the six months ended June 30, 2011 are presented below in the following tables:
