**(An Exploration Stage Company)**  
**NOTES TO UNAUDITED FINANCIAL STATEMENTS**  
**September 30, 2011**

**NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**

***(a) Organization and Business:***

Oro East Mining, Inc. ("Oro" or the "Company") was incorporated in Delaware on February 15, 2008 for the purpose of raising capital that is intended to be used in connection with its business plan which may include a possible merger, acquisition or other business combination with an operating business.

On July 2, 2010, the Company changed its business plan to become an exploration and refining company for the mining of gold, copper, and other precious or industrial mineral deposits through the acquisition of certain rights in the Republic of the Philippines. On that date, the Company entered into an Assignment of Rights Agreement with Oro-East Mining Company LTD. Oro assigned to the Company certain rights and obligations with respect to the permitted mining claims described in the Rights Agreement. Pursuant to the Rights Agreement, the Company will assume the rights and obligations of Oro to explore, extract, refine and produce precious metals and other industrial deposits on the claims and earn fees with respect to such services. By entering into the Rights Agreement, the Company commenced business as an exploration, mining, refinery and production company. The Company intends to focus on extracting gold, silver, copper, iron ore and other industrial minerals to primarily meet the demands of Chinese Government and companies for the mined minerals.

On November 18th, 2010, Oro East Mining, Inc. invested \$50,000 to establish Oro East Greentech Philippines Inc. ("Greentech"). Greentech is wholly owned by Oro East and will be in charge of the mining business in Philippines. The financial statement presented are the consolidated for Oro East Mining, Inc. and Oro East Greentech Philippines Inc.

The Company is currently in the development stage. All activities of the Company to date relate to its organization, initial funding and share issuances.

***(b) Basis of Presentation***

The accompanying Interim Financial Statements are unaudited and have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission. In the opinion of management, all adjustments for a fair statement of the results and operations and financial position for the interim periods presented have been included. All such adjustments are of a normal recurring nature. The financial information should be read in conjunction with the Financial Statements and notes thereto included in the Company's Form 10-K Annual Report for the year ended December 31, 2010. The September 30, 2011 consolidated financial statements presented herein may not be indicative of the results of the Company for the year ending December 31, 2011.

***(c) Going Concern***

The accompanying financial statements have been prepared on a going concern basis, which assumes the Company will realize its assets and discharge its liabilities in the normal course of business. As reflected in the accompanying financial statements, the Company has a negative deficit accumulated during the development stage of \$785,551 and has negative working capital of \$212,308 at September 30, 2011. The Company's ability to continue as a going concern is dependent upon its ability to generate future profitable operations and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management's plan includes obtaining additional funds by equity financing and/or related party advances; however there is no assurance of additional funding being available. These conditions raise substantial doubt about the Company's ability to continue as a going concern. The accompanying financial statements do not include any adjustments that might arise as a result of this uncertainty.

**NOTE 2 - RELATED PARTY TRANSACTIONS**

The CEO of the company has paid expenses on behalf of the company totaling \$145,900. The balance is unsecured, non interest bearing and due on demand.

**NOTE 3 - EQUITY**

During the 9 months ended September 30, 2011, the Company sold 529,500 shares at \$2 per share for \$1,059,000.

**NOTE 4 - CAPITALIZATION OF ROAD IMPROVEMENT**

During the first nine months of 2011, Oro East built roads in the Philippines to facilitate the exploration of mining properties. The roads were built without a signed property lease and the Company considers these as reasonable exploration expense and has capitalized the total road cost of \$641,701. Since, the business operations have not commenced as of September 30, 2011 no depreciation is recognized.

**NOTE 5 - SUBSEQUENT EVENTS**

On October 6, 2011, company issued 50,000 at \$2 per share for \$100,000.

**NOTE 6 - RESTATEMENTS**

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

From inception (February 15, 2008), the Company was organized as a vehicle to investigate and, if such investigation warrants, acquire or merge with a target company or business seeking the perceived advantages of being a publicly held corporation.

On July 2, 2010 the Company changed its business plan to become an exploration and refining company for the mining of gold, copper, and other precious or industrial mineral deposits through the acquisition of certain rights in the Republic of the Philippines. On that date, the Company entered into an Assignment of Rights Agreement ("Rights Agreement") with Oro-East Mining Company LTD. Pursuant to the terms of the Rights Agreement, Oro assigned to the Company certain rights and obligations with respect to the permitted mining claims described in the Rights Agreement. Pursuant to the Rights Agreement, the Company will assume the rights and obligations of Oro to explore, extract, refine and produce precious metals and other industrial deposits on the claims and earn fees with respect to such services. By entering into the Rights Agreement, the Company commenced business as an exploration, mining, refinery and production company. The Company intends to focus on extracting gold, silver, copper, iron ore and other industrial minerals to primarily meet the demands of Chinese Government and companies for the mined minerals.

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) and Rule 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended (Exchange Act), as of September 30, 2011.
