CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q of Oro East Mining, Inc., a Delaware corporation (the “Company”), contains “forward-looking statements,” as defined in the United States Private Securities Litigation Reform Act of 1995. In some cases, you can identify forward-looking statements by terminology such as “may”, “will”, “should”, “could”, “expects”, “plans”, “intends”, “anticipates”, “believes”, “estimates”, “predicts”, “potential” or “continue” or the negative of such terms and other comparable terminology. These forward-looking statements include, without limitation, statements about our market opportunity, our strategies, competition, expected activities and expenditures as we pursue our business plan, and the adequacy of our available cash resources. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Actual results may differ materially from the predictions discussed in these forward-looking statements. The economic environment within which we operate could materially affect our actual results. Additional factors that could materially affect these forward-looking statements and/or predictions include, among other things: the volatility of minerals prices, the possibility that exploration efforts will not yield economically recoverable quantities of minerals, accidents and other risks associated with mineral exploration and development operations, the risk that the Company will encounter unanticipated geological factors, the Company’s need for and ability to obtain additional financing, the possibility that the Company may not be able to secure permitting and other governmental clearances necessary to carry out the Company’s exploration and development plans, the exercise of the approximately 81.1% control the Company’s voting securities the Company’s Chief Executive Officer, Tian Qing Chen, holds, other factors over which we have little or no control; and other factors discussed in the Company’s filings with the Securities and Exchange Commission (“SEC”).

Our management has included projections and estimates in this Form 10-Q, which are based primarily on management’s experience in the industry, assessments of our results of operations, discussions and negotiations with third parties and a review of information filed by our competitors with the SEC or otherwise publicly available. We caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made. We disclaim any obligation subsequently to revise any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

**NOTE 1 ORGANIZATION, BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**(a) Basis of Presentation**

The accompanying interim consolidated financial statements are unaudited and have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission. In the opinion of management, all adjustments for a fair statement of the results and operations and financial position for the interim periods presented have been included. All such adjustments are of a normal recurring nature. The March 31, 2015 interim consolidated financial statements presented herein may not be indicative of the results of the Company for the year ending December 31, 2015. These unaudited interim consolidated financial statements should be read in conjunction with the consolidated financial statements and related notes included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014 filed with the SEC on March 31, 2015.

**(b) Use of Estimates**

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the balance sheet and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**(c) Reclassification**

Certain prior period amounts have been reclassified to conform with current period presentation.

**NOTE 2 GOING CONCERN**

The accompanying interim consolidated financial statements have been prepared on a going concern basis, which assumes the Company will realize its assets and discharge its liabilities in the normal course of business. As reflected in the accompanying interim consolidated financial statements, the Company has an accumulated deficit of \$8,468,438 and a negative working capital of \$2,609,555 at March 31, 2015. The Company's ability to continue as a going concern is dependent upon its ability to generate future profitable operations and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management's plan includes obtaining additional funds by equity and debt financing and/or related party advances, but there is no assurance of additional funding being available. These conditions raise substantial doubt about the Company's ability to continue as a going concern. The accompanying interim consolidated financial statements do not include any adjustments that might arise as a result of this uncertainty.

There were no direct costs or fees associated with the terms modification of the convertible note. The Company also analyzed the modified conversion option under *ASC 815, Derivatives and Hedging*, and determined that the instrument does not qualify for derivative accounting and that the instrument does not have a beneficial conversion feature.
- (2) The notes were paid off on March 16, 2015.

***Business Overview***

This quarter the Company has been exploring its Red Bank Mine assets in Mariposa County, California. The Company entered into a letter of intent with Red Bank Trust for the purchase of mining claims known as the Red Bank Mine ("Red Bank Mine"). On December 12, 2014, the Company entered into a binding letter of intent with Red Bank Trust for the purchase of certain lode and placer mining claims and all mineral rights thereto, spanning 55 deeded acres in Mariposa County known as the Red Bank Mines, including an easement, right of entry, and other rights and interests as set forth in the letter of intent ("Mining Claims and Mineral Rights"). A long-form purchase agreement for the Mining Claims and Mineral Rights that integrates the letter of intent will be prepared by mutually agreed upon legal counsel or licensed brokers within 20 days of the expiration of the Due Diligence Period as set forth in the letter of intent.

The parties agreed to a consideration valuation of \$2,000,000.00 (Two Million U.S. Dollars) paid in part with 20,000,000 restricted shares of Company stock, which the parties value at \$1,000,000.00, and paid in part with a Convertible Promissory Note and Convertible Note Purchase Agreement to Yan Ming Wu, the named beneficiary of the Redbank Trust, in the sum of \$1,000,000.00. Yan Ming Wu is a foreign national and citizen of the People's Republic of China. As of the filing date of this report, the Company is still performing its due diligence related to the Red Bank letter of intent.

The Company had previously entered into a Mining Lease and Royalties Agreement executed on June 24, 2013. Upon the execution of the letter of intent, the Agreement is voided, though in the event that the transactions contemplated by the letter of intent are not completed, the Agreement will be automatically effective again and enforceable upon termination of the letter of intent.

The Red Bank Mine property is located approximately 17 miles north of the town of Mariposa, California. We are currently conducting mineral exploration activities on the Red Bank Mine property in order to assess whether it contains any commercially exploitable mineral reserves. Currently there are no known mineral reserves on the Red Bank Mine property.

The Company had a geological evaluation report on the Red Bank Mine property prepared, entitled "National Instrument 43-101 Technical Report on Red Bank Mine – 81 Acres, Apns 003-350-0050; 003-340-0070; And 003-330-0060, Mariposa County, California, for Oro East Mining, Inc." (the "Report") by Robert Campbell, M.S., California Professional Geologist, California Certified Engineering Geologist and Principal Engineering Geologist of GeoSolve, Inc., on December 29, 2014.

On January 21, 2015, the Company entered into a Convertible Note Purchase Agreement and Convertible Promissory Note with a foreign investor lender for the sum of \$720,000.00 (Seven Hundred Twenty Thousand U.S. Dollars) at an interest rate of 8% (Eight Percent) to be repaid on or before July 21, 2015. Conversion, if exercised, would be at \$0.09 per share. There are no prepayment penalties.
