CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q of Oro East Mining, Inc., a Delaware corporation (the “Company”), contains “forward-looking statements,” as defined in the United States Private Securities Litigation Reform Act of 1995. In some cases, you can identify forward-looking statements by terminology such as “may”, “will”, “should”, “could”, “expects”, “plans”, “intends”, “anticipates”, “believes”, “estimates”, “predicts”, “potential” or “continue” or the negative of such terms and other comparable terminology. These forward-looking statements include, without limitation, statements about our market opportunity, our strategies, competition, expected activities and expenditures as we pursue our business plan, and the adequacy of our available cash resources. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Actual results may differ materially from the predictions discussed in these forward-looking statements. The economic environment within which we operate could materially affect our actual results. Additional factors that could materially affect these forward-looking statements and/or predictions include, among other things: the volatility of minerals prices, the possibility that exploration efforts will not yield economically recoverable quantities of minerals, accidents and other risks associated with mineral exploration and development operations, the risk that the Company will encounter unanticipated geological factors, the Company’s need for and ability to obtain additional financing, the possibility that the Company may not be able to secure permitting and other governmental clearances necessary to carry out the Company’s exploration and development plans, the exercise of the approximately 81.1% control the Company’s voting securities the Company’s Chief Executive Officer, Tian Qing Chen, holds, other factors over which we have little or no control; and other factors discussed in the Company’s filings with the Securities and Exchange Commission (“SEC”).

Our management has included projections and estimates in this Form 10-Q, which are based primarily on management’s experience in the industry, assessments of our results of operations, discussions and negotiations with third parties and a review of information filed by our competitors with the SEC or otherwise publicly available. We caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made. We disclaim any obligation subsequently to revise any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE 1 ORGANIZATION, BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Presentation

The accompanying interim consolidated financial statements are unaudited and have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission. In the opinion of management, all adjustments for a fair statement of the results and operations and financial position for the interim periods presented have been included. All such adjustments are of a normal recurring nature. The June 30, 2015 interim consolidated financial statements presented herein may not be indicative of the results of the Company for the year ending December 31, 2015. These unaudited interim consolidated financial statements should be read in conjunction with the consolidated financial statements and related notes included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014 filed with the SEC on March 31, 2015.

(b) Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the balance sheet and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(c) Reclassification

Certain prior period amounts have been reclassified to conform with current period presentation.

NOTE 2 GOING CONCERN

The accompanying interim consolidated financial statements have been prepared on a going concern basis, which assumes the Company will realize its assets and discharge its liabilities in the normal course of business. As reflected in the accompanying interim consolidated financial statements, the Company has an accumulated deficit of \$8,841,130 and a negative working capital of \$2,869,988 at June 30, 2015. The Company's ability to continue as a going concern is dependent upon its ability to generate future profitable operations and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management's plan includes obtaining additional funds by equity and debt financing and/or related party advances, but there is no assurance of additional funding being available. These conditions raise substantial doubt about the Company's ability to continue as a going concern. The accompanying interim consolidated financial statements do not include any adjustments that might arise as a result of this uncertainty.

The Company analyzed the terms modification of the convertible notes under *ASC 470-60, Troubled Debt Restructurings*, and *ASC 470-50, Extinguishment of Debt*, and determined that the creditors had not granted a concession and the modifications were substantial. The Company amortized the remaining discount on the convertible notes to interest expense on the dates of the conversion. There were no direct costs or fees associated with the terms modification of the convertible notes. The Company also analyzed the modified conversion option under *ASC 815, Derivatives and Hedging*, and determined that the instrument does not qualify for derivative accounting and that the instrument does not have a beneficial conversion feature.

(3) These notes were also extended from their previous maturity dates. The Company analyzed the terms modification of the convertible notes under *ASC 470-60* and determined that the modifications were not substantial as the only change to the terms of the notes was to extend the maturity date.

Business Overview

This quarter the Company has been developing a proprietary invention that would use parabolic solar energy to process dry mining gold tailings. On or about July 6, 2015, the Company filed a provisional patent application with the U.S. Patents and Trademarks Office. The patent pending invention would help the Company extract water from dry tailings from gold mining production. The purpose of the patent pending invention is to recycle and reuse all processed water. Such a process will advance mining production technology in a more eco-friendly direction, especially in light of California's current drought.

The Company has also been exploring its Red Bank Mine assets in Mariposa County, California. The Company entered into a letter of intent with Red Bank Trust for the purchase of mining claims known as the Red Bank Mine ("Red Bank Mine"). On December 12, 2014, the Company entered into a binding letter of intent with Red Bank Trust for the purchase of certain lode and placer mining claims and all mineral rights thereto, spanning 55 deeded acres in Mariposa County known as the Red Bank Mines, including an easement, right of entry, and other rights and interests as set forth in the letter of intent ("Mining Claims and Mineral Rights"). A long-form purchase agreement for the Mining Claims and Mineral Rights that integrates the letter of intent will be prepared by mutually agreed upon legal counsel or licensed brokers within 20 days of the expiration of the Due Diligence Period as set forth in the letter of intent.

Then, on or about May 20, 2015, the Company executed an extension for the Red Bank Mine conditions and the due diligence period for the Red Bank Mine transaction has been extended until November 30, 2015.

The parties agreed to a consideration valuation of \$2,000,000.00 (Two Million U.S. Dollars) paid in part with 20,000,000 restricted shares of Company stock, which the parties value at \$1,000,000.00, and paid in part with a Convertible Promissory Note and Convertible Note Purchase Agreement to Yan Ming Wu, the named beneficiary of the Red Bank Trust, in the sum of \$1,000,000.00. Yan Ming Wu is a foreign national and citizen of the People's Republic of China. As of the filing date of this report, the Company is still performing its due diligence related to the Red Bank letter of intent.

The Company had previously entered into a Mining Lease and Royalties Agreement executed on June 24, 2013. Upon the execution of the letter of intent, the Agreement is voided, though in the event that the transactions contemplated by the letter of intent are not completed, the Agreement will be automatically effective again and enforceable upon termination of the letter of intent.

The Red Bank Mine property is located approximately 17 miles north of the town of Mariposa, California. We are currently conducting mineral exploration activities on the Red Bank Mine property in order to assess whether it contains any commercially exploitable mineral reserves. Currently there are no known mineral reserves on the Red Bank Mine property.

The Company had a geological evaluation report on the Red Bank Mine property prepared, entitled "National Instrument 43-101 Technical Report on Red Bank Mine – 81 Acres, Apns 003-350-0050; 003-340-0070; And 003-330-0060, Mariposa County, California, for Oro East Mining, Inc." (the "Report") by Robert Campbell, M.S., California Professional Geologist, California Certified Engineering Geologist and Principal Engineering Geologist of GeoSolve, Inc., on December 29, 2014.

Net Cash Provided By Financing Activities	444,824	1,565,871
Effect Of Exchange Rate On Cash	(9)	14
Net Decrease In Cash	<u>\$ (10,177)</u>	<u>\$ (35,397)</u>

Our principal sources of liquidity are our cash and the cash flow provided by the shareholder advances and debt and equity financing. We believe that further debt and equity financing is needed to satisfy our anticipated cash requirements through the next 12 months.

Total cash decreased by about \$10,000 before the effect of exchange rate was mainly due to about \$455,000, \$134,000 and \$171,000 of cash used for funding the operations, repayment of debts and repayments of shareholder advances, respectively, and \$750,000 of cash provided by convertible note issuance during the six months ended June 30, 2015.
